PROFESSIONAL SUMMARY

Cardiovascular perfusion trainee completing an EBCP-accredited M.Sc. at Ankara University School of Medicine, with hands-on experience running heart-lung machines, ECMO and cardioplegia systems in adult and pediatric open-heart surgery, including a pediatric heart transplant. Brings a year of commercial experience in consultative sales, negotiation and pipeline building at Coldwell Banker. Combines clinical credibility in the OR with the communication skills to demonstrate, train and sell. Seeking a Clinical Specialist, Clinical Applications or Medical Device Sales role in cardiac surgery, perfusion or ECMO.

SKILLS

- **Perfusion equipment:** Heart-lung machines, ECMO systems, oxygenators, arterial filters, cardioplegia systems, VAVD, Hemochron ACT, blood gas analysis
- **Procedures:** CABG, valve surgery (MVR/AVR/TVR), LVAD, heart transplant, minimally invasive cardiac surgery, aortic dissection, AAA repair
- **Commercial:** Consultative selling, product demonstrations, negotiation, pipeline building, client relationship management, clinical education
- **Languages:** English, Turkish, Arabic

EDUCATION

M.Sc. Cardiovascular Perfusion (EBCP-accredited) Sept 2024 – Jan 2027 (expected)
Ankara University School of Medicine — Ankara, Türkiye

B.Sc. Biology 2023
Kirkuk University — Kirkuk, Iraq

CLINICAL EXPERIENCE

Clinical Perfusion Trainee Sept 2024 – Present
Ankara University School of Medicine, Dept. of Cardiovascular Surgery — Ankara, Türkiye

- Operate heart-lung machines, oxygenators, perfusion circuits and cardioplegia delivery systems during adult and pediatric cardiac surgery.
- Support perfusion management in CABG, valve repair/replacement, LVAD implantation, aortic dissection and AAA repair.
- Monitor patients on cardiopulmonary bypass: blood gas analysis, ACT and anticoagulation management, circuit pressures and flows.
- Troubleshoot in real time during emergencies, including gas-blender and sweep-gas failures and circuit pressure alarms.
- Run pre-operative safety checks, equipment setup and priming, and post-operative circuit breakdown.
- **Selected case — pediatric heart transplant (Oct 2026):** perfusion team member for a complex transplant in a patient with prior RVAD support; managed venous drainage on CPB, including vacuum-assisted venous drainage (VAVD), within a multidisciplinary team.

COMMERCIAL EXPERIENCE

Real Estate Sales Consultant Apr 2024 – Mar 2025
Coldwell Banker — Istanbul, Türkiye

- Managed client relationships end to end, assessing needs and presenting tailored high-value properties.
- Led product presentations, price negotiations and contract closings across a high volume of client meetings.
- Built a recurring client pipeline through cold calling, networking and referrals.

Customer Service & Operations Specialist Dec 2023 – Mar 2024
Cheffırın — Istanbul, Türkiye

- Ran fast-paced daily floor operations, handling customer queries, order accuracy and issue resolution under pressure.

TRAINING & CONFERENCES

17th Annual Neonatal & Pediatric ECLS Educational Conference Oct 2026
UPMC Children's Hospital of Pittsburgh — Virtual

- Neonatal and pediatric extracorporeal life support (ECLS/ECMO) management.

Medtronic Regional Educational Meeting Sept 2026
Medtronic — Konya, Türkiye

- ECMO management, advanced myocardial protection and targeted cerebral perfusion.

World University Program for Congenital Heart Surgery (WUPCHS)

- Modules on pediatric congenital heart disease, lung transplantation and multi-organ transplant perfusion.
